Medicology is the largest provider of Leadership, Management & Personal Development training courses for Doctors

# Cost Effective In-House Training Solutions

Tailored solutions delivered in your workplace that give the right results and offer huge savings per person compared with open courses

## Experienced in Developing Programmes

Ensuring you run the right courses at the right time

Medicology is highly experienced at creating dynamic and impactful programmes for all kinds of doctors but especially SAS doctors. Over the past year or so we have delivered programmes from a single one off to a carefully thought through rolling programme. We can help you design just the right programme of events to bring out the best in your SAS team, tailored to their specific and unique context, whilst drawing on our unrivalled experience from getting this right again and again already!

## Typical Programme

Case studies in what we've done before

Because we've run so many programmes, we bring a unique, countrywide perspective on what has gone before and how it has worked. A typical (if there is such a thing) programme for us might consist of a series of programmes, such as the one currently running for a successful and proactive NHS Trust:

- People, Relationships & Conflict – Improving Interpersonal Effectiveness
- Core Skills in Clinical Governance for SAS Doctors
- Clinical Effectiveness & Improvement for SAS Doctors
- Management Excellence for SAS Doctors
- Leadership Excellence for SAS Doctors
- Advanced Communication Skills for SAS Doctors
- Appraisals & Revalidation for SAS Doctors
- Core Skills in Mentoring & Coaching for SAS Doctors
- Presentation & Teaching Skills for SAS Doctors
- Core Skills in Clinical & Service Audit for SAS Doctors

It's important to get the right programme for you and your group. Each group is different, each context is different and we'd be delighted to provide some thought stimulation when you consider what's best.

We'd be happy to provide more examples...

## Trust & Insight

Medicology has run literally hundreds of days in all types of NHS organisations from single departments to whole organisations, Acute Trusts, PCTs, medical schools, SHAs and has a considerable number of current live contracts specifically for SAS Doctor Training.

You can find out how we helped and who else we have worked with at: [www.medicology.co.uk/inhouse](http://www.medicology.co.uk/inhouse)

## Add Value

Medicology have state of the art event management systems and we make these available to you as part of the process. This saves time, makes you look professional and delivers considerable added value:

- Your participants can register directly on our system, automating all of the admin functions from joining instructions to badges
- We provide you with beautiful PDF posters or brochures at no extra cost (we want your event to be successful)
- Once you have a venue, we take over the full management role, leaving you free to do the day job

## Taking This Forward

Drop an email to Sarah Coyne, Head of Business Development, [sarah@medicology.co.uk](mailto:sarah@medicology.co.uk) or call her on 01332 821260, you can download our In-House Brochure at: [www.medicology.co.uk/inhouse](http://www.medicology.co.uk/inhouse)

# What Others Are Saying. Medicology Testimonials

A selection of testimonials from past delegates on our courses and what they had to say

*"There can be little doubt that this organisation has the passion and foresight to truly interact with its target audience and in doing so rekindle that passion which led the health service forward in the past but which, of late, has been fading"*

Medical Director, Acute Services, Advanced Leadership for Hyperbusy Leaders

*"This is my 3rd course with Medicology and all has certainly been useful"*

Associate Specialist, Bassetlaw Hospital,  
Leadership & Management Fundamentals for SAS Doctors

*"Excellent delivery of material. Overall very informative and motivating"*

SAS Doctor, North Devon  
Leadership Masterclass for SAS Doctors

*"Good content and course material. Excellent delivery, relaxed and open"*

Associate Specialist in Ophthalmology, Portsmouth Hospital,  
Advanced Communication Skills for Healthcare Professionals

*"Excellent course not just for SAS Doctors but for all Doctors and managers"*

Associate Specialist, Bassetlaw Hospital,  
Leadership & Management Fundamentals for SAS Doctors

*"The talk about the current NHS and change was most relevant and useful to me. Would recommend it"*

Associate Specialist Radiology, Churchill Hospital,  
Leadership & Management Fundamentals for SAS Doctors

*"I encourage this course before making that vital presentation - I wish I had the opportunity before I did mine!"*

SpR in Occupational Health & Therapy, Pennine Acute Hospital Trust,  
Presentation & Teaching Skills for SAS Doctors

*"Do the course as early as possible"*

SAS Doctor, North Devon  
Leadership Masterclass for SAS Doctors

*"Definitely go for it. All the communication issues I've had so far stem from not appreciating the different personalities around me"*

*"An extremely valuable utilisation of study leave to help incubate aspects which would help the rest of my working time. Thank you ever so much"*

Specialty Dr, Open course attendee,  
Advanced Communication Skills for Healthcare Professionals

*"Excellent course. Gave me good insight into time management and my strengths. Will try to build on this information"*

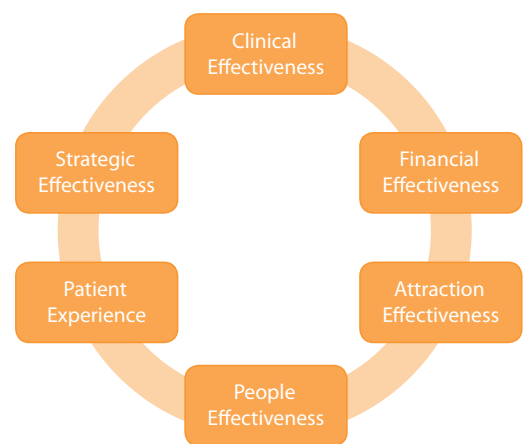

SpR in Nephrology - Royal Liverpool University Hospital  
Time Management & Personal Effectiveness

## Balancing Business & Clinical Imperatives in Health

Modern healthcare organisations survive and thrive in a highly competitive environment through a coordinated (collaborative clinical & managerial), effective approach to the core components of service success shown on the right.

Besides having a range of programmes that deal with these specific elements of service success, all Medicology programmes are consistent in their approach to encouraging attention to all 6 core components.

medicology

Medicology is passionate about performance in people and synonymous with creating high performance in teams and individuals in the modern healthcare environment. We are the largest provider of open courses in leadership & management specifically for healthcare professionals and renowned for successfully engaging clinical teams. We have a thriving bespoke (In-house) training service and a growing role in consulting in people-related healthcare challenges. We are especially renowned for our deep understanding of the current healthcare agenda and our ability to move the minds and motivation of clinical staff.

Leadership, Management, Team and Personal Performance Training for Consultants, newly appointed Consultants, Staff Grade and Associate Specialist, Junior and Middle Grade Doctors, Nursing Staff, Allied Professionals and Management from top to bottom.
